

## QGIS Application - Bug report #17222

### OpenFileGDB feature count showing in layer name value

2017-09-29 04:46 PM - joe larson

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>		
<b>Category:</b>	Vectors	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 25121
<b>Description</b>		
<p>When adding an OpenFileGDB layer, the feature count is appearing in the 'Layer name' column value instead of the 'Number of features' column value.</p> <p>I have seen this with qgis-dev on macOS Sierra and Windows 10.</p>

**#2 - 2017-10-21 12:40 AM - Even Rouault**

- Status changed from Open to Feedback

Can you retry with latest master ? I can't reproduce, so it might have been fixed

**#3 - 2017-10-23 04:53 AM - joe larson**

- Status changed from Feedback to Closed

fixed in a recent master - thank you!

**#4 - 2017-10-23 08:47 AM - Giovanni Manghi**

Is this ticket the same as #16135 ?

**#5 - 2017-10-23 10:28 AM - Jürgen Fischer**

- Duplicated by Bug report #17226: Geopackage "Select Vector Layers to Add" dialogue has wrong nr of features added

**#6 - 2017-10-23 10:35 AM - Jürgen Fischer**

- Related to Bug report #16135: Selection by layerid instead layername from .gdb added
