

QGIS Application - Bug report #17222

OpenFileGDB feature count showing in layer name value

2017-09-29 04:46 PM - joe larson

Status: Closed	
Priority: Low	
Assignee:	
Category: Vectors	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 25121
Description	
When adding an OpenFileGDB layer, the feature count is appearing in the 'Layer name' column value instead of the 'Number of features' column value.	
I have seen this with qgis-dev on macOS Sierra and Windows 10.
