Easy fix?: No	Copied to github as #: 25173
Description	
<p>Having some long running task, I had at a certain moment 3 progress bars in view, see screenshot :-)</p> <p>Would be cool if we could merge the older one(s?) in the very nice new one (the one you can stop threads in etc, the little one).</p> <p>Not VERY important, but looking at UI thingies at the moment, and it eats needed space I think...</p>
