<b>Operating System:</b> Arch Linux x64	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> invalid
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 25216

#### Description

I'm trying to assign the height value from a field in the attribute table, but when trying to use the "Set Z Value" processing tool, and using the Expressions Calculator the "Fields and Values" option doesn't work correctly, showing the NULL option.
