

QGIS Application - Bug report #17341

Attribute table refresh button - de-selects the selection when using PostGIS layers

2017-10-27 09:37 AM - Amy Taylor

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Attribute table	
<b>Affected QGIS version:</b>	2.18.9	<b>Regression?:</b> No
<b>Operating System:</b>	Windows 7	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> not reproducible
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 25238
<b>Description</b>		
When using layers loaded from PostGIS hitting the table refresh button in the attribute table view de-selects the current selection.		
This does not happen if using shapefile layers, where re-freshing the table performs the refresh while maintaining the current selection.		

History

#1 - 2017-10-27 09:42 AM - Giovanni Manghi

- Status changed from Open to Feedback

Try a more recent version, like 2.18.13 and see if still happens.

#2 - 2018-08-15 11:56 PM - Giovanni Manghi

- Resolution set to not reproducible

- Status changed from Feedback to Closed

Closing for lack of feedback.
