QGIS Application - Feature request #17349
Sort out the trusted/untrusted plugins/authors stuff

2017-10-28 11:23 AM - Borys Jurgiel

Status:	Closed			
Priority:	Normal			
Assignee:	Borys Jurgiel			
Category:	Plugin Manager			
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented	
Easy fix?:	No	**Copied to github as #:**	25246	

Description

Let's gather existing discussions.

Richard said:

Instead of this black-white labeling I now have the idea that we should maybe move to some 'crowd testing': that is we ask everybody to 'test' have a look at new plugins, and not earlier then such a plugin 'earns' enough 'works for me and did not harm me' points it will get a flag 'the crowd thinks this one is ok'...
Not only then we share the responsibility to tell if a plugin is ok/helpful/harmful or not, but we can also make plugin builders to try to 'market' their plugins by asking on lists to test his/her plugin...
