

QGIS Application - Bug report #17374

QGIS elevation interpolation from sprayer RTK data in agriculture

2017-11-01 04:42 PM - Moritz Altenbach

Status: Closed	
Priority: Normal	
Assignee:	
Category: Processing/Core	
Affected QGIS version: 2.18.13	Regression?: No
Operating System: windows 64 bit	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: not reproducible
Crashes QGIS or corrupts data: No	Copied to github as #: 25271
Description	
<p>Here's the issue you wanted to look over. I think that RTK data from agriculture would have a lot of potential, as it is measured on every operation. I really wish generating a DEM would work properly.</p>	

History

#1 - 2017-11-02 11:12 AM - Giovanni Manghi

- Assignee deleted (Nyall Dawson)
- Status changed from Open to Feedback
- Category changed from Map Tools to Processing/Core

What is the problem with your data? I can interpolate the elevation values without any issue with many of the available options in the Processing toolbox.

#2 - 2018-02-22 02:44 PM - Giovanni Manghi

- Resolution set to not reproducible
- Status changed from Feedback to Closed

Closing for lack of feedback, please reopen if necessary.
