

QGIS Application - Bug report #17416

Crash on enabling 3D renderer for point layer

2017-11-07 09:13 PM - Anita Graser

Status:	Open	
Priority:	High	
Assignee:	Martin Dobias	
Category:	3D	
Affected QGIS version:	3.4.1	Regression?: No
Operating System:	Win10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 25313

Description

User Feedback

Using OSGeo4W nightly, I load the airports sample layer, enable the 3D viewer, then "Enable 3D renderer" and QGIS crashes.

Unfortunately I cannot replicate (on linux).

Does that happen just with this point layer? Or any point layer you try? How about linestring/polygon layers?

Does basic 3D map view work though?

The backtrace suggests it may have something to do with graphics card drivers (or maybe Qt 3D doing some invalid calls). What graphics card / drivers do you have? Is it possible for you to give it a try on a different computer (with a different kind of graphics card) ?

#4 - 2017-11-22 08:21 PM - Anita Graser

It happens with all QGIS sample Shapefiles (point, line, and polygon).

What do you mean with "basic 3D map view"?

This happens on my ASUS Zen notebook with Intel Iris graphics card. I'll try another Win machine.

#5 - 2017-11-23 01:55 PM - Martin Dobias

With "basic 3D map view" I meant just to be able to open the 3D map view, do some zooming/panning around, configure terrain based on DEM... in general any interaction with the 3D view that does not involve enabling 3D renderers of individual layers - to understand whether there are more cases of interacting with 3D view and getting crashes...

- *Status changed from Open to Feedback*

#7 - 2017-11-23 07:57 PM - Anita Graser

- *Operating System set to Win10*

There are no crashes on my desktop PC with NVIDIA GeForce GTX 670.

#8 - 2017-11-23 09:40 PM - Anita Graser

Back on the notebook: Configuring a DEM for 3D view works without crashes, but any vector layer with 3D enabled does crash.

Please try on QGIS 3.4.1, if the issue is still valid change the affected version, thanks.

#14 - 2018-11-08 08:29 PM - Anita Graser

- Affected QGIS version changed from master to 3.4.1
