

QGIS Application - Bug report #17496

Conditional formatting of inactive features not applied on relatin reference widget combobox

2017-11-20 11:29 AM - Andreas Neumann

Status:	Closed	
Priority:	High	
Assignee:	Matthias Kuhn	
Category:	Edit widget	
Affected QGIS version:	master	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch applied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 25393
Description		
<p>In QGIS 2.18, if one specified conditional formatting on a row (e.g. inactive features are crossed-out or red), the same formatting was used in the combobox of a relation reference widget, to distinguish active from inactive features.</p> <p>In current QGIS master, this conditional formatting is not applied.</p> <p>It is a regression, since it worked in 2.18.</p>
