

QGIS Application - Bug report #17503

Custom CRS is duplicated in 2.99

2017-11-21 09:44 AM - Harel Dan

Status: Closed	
Priority: High	
Assignee:	
Category: Projection Support	
Affected QGIS version: master	Regression?: Yes
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 25400
Description	
User defined CRS, the name and parameters are duplicated several times, and appear as duplicate rows when setting project crs or editing the crs in the setting.	

History

#1 - 2017-11-21 11:07 AM - Giovanni Manghi

- Regression? changed from No to Yes
- Priority changed from Normal to High

#2 - 2017-11-21 12:31 PM - Nyall Dawson

- Status changed from Open to Feedback

This should be fixed since last week - can you ensure that you're running a recent build, and then try removing all the duplicate entries and checking if they come back?

#3 - 2017-11-21 02:42 PM - Harel Dan

- File crs2.png added

I have updated to the most recent build 95cf299099 and the issue indeed appears to be fixed. At first I had 6 duplicates. After deleting them and rebooting QGIS, they did not reappear.

#4 - 2017-11-21 03:42 PM - Giovanni Manghi

- Resolution set to fixed/implemented
- Status changed from Feedback to Closed
