QGIS Application - Bug report #1760
Edit mode icon does not appear in legend after loading a project

2009-07-05 02:48 PM - Giovanni Manghi

Status:	Closed			
Priority:	Low			
Assignee:	Magnus Homann			
Category:	Map Legend			
Affected QGIS version:			**Regression?:**	No
Operating System:	All		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	11820

Description

*) add a vector to your project

*) rename it using "properties -> display name" or "F2" or "right click -> rename"

*) if you toggle edit mode the icon in the legend changes

*) save the project, exit, re-open qgis and the save project

*) toggle edit mode for the above layer

*) the icon in the legend doesn't change any more, not even if you rename it to the original name. Seems also to propagate the problem to other eventual layers added to the project.

tested qgis 1.2 rev. 11023 with Ubuntu 9.04

History

#1 - 2009-08-07 12:59 AM - Giovanni Manghi

As noted in #1862 it is not necessary to rename the layers. The behavior show also after simply loading a project file.

#2 - 2009-08-17 02:52 AM - Magnus Homann

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in commit:e5d72719 (SVN r11406).
