Hi Saber, where exactly do you see this?

I cannot find anywhere these in master.

Is it the 'Open an OGR Supportd Vector Layer' dialog in the DataSourceManager?

1. Click on Open Data Source
2. In the new window, click on Vector from the left panel
3. For Vector Dataset(s) click on ...
4. In the new window, click on the drop-down for Filter
5. You should be able to see 2 rows as ESRI Shapefiles

Are they one after the other? I can't see the two entries here.

It is probably some local issue. I will close this issue.
