QGIS Application - Bug report #17621
Not possible to add WMTS service

2017-12-04 01:25 PM - James Passmore

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Web Services clients/WMS		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	not reproducable
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25518

Description

It used to be possible to add an OGC WMTS service to QGIS but it no longer seems possible

Previously, (QGIS 2.2.0), you could use the Add WMS/WMTS Layer menu option to supply a link to the WMTS capabilities document.

If I try this now I get an error 'Failed to download capabilities'. There is no problem with the WMTS service.

History

#1 - 2017-12-04 01:38 PM - Richard Duivenvoorde

Cannnot reproduce.

Please provide more info:

- which version of QGIS, Operating System

- service url which fails

Here I can add the following wmts service succesfully on latest master

https://geodata.nationaalgeoregister.nl/luchtfoto/rgb/wmts?request=GetCapabilities&service=WMTS

How do you add a service which has a static Capabilities, it used to be possible (ref
https://gis.stackexchange.com/questions/52346/is-it-possible-to-use-wmts-in-qgis)

like:

http://tiles.maps.eox.at/wmts/1.0.0/WMTSCapabilities.xml

No it's my mistake, it used to be possible to do this through the Browser panel, which is where I was trying, but now it is only possible through the Layer > Add Layer (or Manage Layers toolbar)

- Status changed from Open to Feedback

I cannot confirm, tested on both Windows and Linux/KDE.

#5 - 2017-12-27 03:23 PM - Saber Razmjooei

- Status changed from Feedback to Closed

Feel free to open a ticket about UI inconsistency. But it is possible to add WMTS to QGIS in master.
