

QGIS Application - Feature request #17625

Data source manager - button 'add all selected data' in QGIS 3.0

2017-12-04 06:27 PM - salvatore fiandaca

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Data Source Manager	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 25522
Description		
<p>currently you can add data one at a time, pressing on add;</p> <p>IMHO would be useful a key that allows you to add all the selected sources.</p> <p>example:</p> <p>if I had to load a raster, a shapefile and a spatialite / postgis table I would have to click three times to add; with the button, add all the selected data and import the data with just one click.</p> <p>thank you</p>
