

QGIS Application - Bug report #17633

GeoPackage DB are shown empty in the Data Source Manager --> Browser tab

2017-12-05 03:53 PM - Harrissou Santanna

Status: Closed	
Priority: Normal	
Assignee:	
Category: Data Source Manager	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: not reproducible
Crashes QGIS or corrupts data:	Copied to github as #: 25530
Description	
<p>I fail to see the layers that are in the geopackage dbs I created.</p> <p>There's no more arrow to expand/collapse at the left of the DBs but it was there at the beginning and disappear after few clicks.</p> <p>You could see in the screenshot that the layers are shown in the DB Manager.</p>

Here's one of the culprits <https://framadrop.org/r/EuTOb1CDme#xIKj9jdAHUnrcgZA/swbYE7fYgpzNSZLRBgy96u9XPs=>

FYI I'm on Windows 10 64bits, using the osgeo4w64 package
