

## QGIS Application - Bug report #17656

### Label expressions are discarded when the "No labels" option is selected

2017-12-08 12:24 PM - Tudor Bărăscu

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Labelling	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> Yes
<b>Operating System:</b> Debian Buster	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 25553
<b>Description</b>	
<p>In QGIS 2, the label expressions are kept in the project after deactivation and can be easily brought back by selecting the "Show labels for this layer option".</p> <p>In Master (2.99), selecting the "No labels" option drops them completely and they cannot be recovered from the project.</p> <p>Steps to reproduce:</p> <ul style="list-style-type: none"><li>- add label expression</li><li>- select "No labels" option (they are discarded)</li><li>- selecting the "Show labels for this layer option" doesn't bring them back</li><li>-</li></ul>

Add separate bool for controlling whether vector layer labels are enabled

Instead of clearing the labeling configuration in order to disable labels, we need a way to disable them without losing the configuration. Labels are often temporarily switched on/off as an analysis tool, and we don't want the settings to be lost as a result

Refs #17656

#### History

##### #1 - 2017-12-08 12:47 PM - Tudor Bărăscu

Better reproduce steps:

Steps to reproduce:

- add label expression
- select "No labels" option (they are discarded)
- Save the project
- reopen the project

- selecting the "Show labels for this layer option" doesn't bring them back

**#2 - 2018-01-24 09:11 AM - Nyal Dawson**

- *Resolution set to fixed/implemented*
- *Status changed from Open to Closed*

Fixed in master
