QGIS Application - Feature request #17660 Merging features/attributes: Allow the use of fields widget in the Merge row

2017-12-08 04:26 PM - Harrissou Santanna

should also show these widgets.

Easy fix?:	No	Copied to github as #: 25557
Description		
-		
When merging fea	atures, it could be nice that in the "I	Merge attributes/features" dialog that pops up, the last row where user sets the values

to apply shows the same widget applied to the fields ie if I use a drop-down, checkbox, ... in the layer for the fields then the "Merge" row

Note that these widgets are already used for the existing features shown in the dialog
