Easy fix?:	No	**Copied to github as #:**	25587

Description

Let's take two layers
Right-click, copy the style of the first one
And paste it on the second layer
Check the Undo/Redo tab in the second layer styling panel
It's empty.
I think that as an action impacting the styling, it should be cancelable as if it has been done in the panel ie, revert the whole styling (as one action) and rollback to the initial style.
