

QGIS Application - Bug report #17718

CRS selector: Extent is not displayed for all CRS

2017-12-18 04:58 PM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	3.7(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 25614
Description		
<p>I've asked question about this on list and got no answer so I'm reporting it here as I feel it's a bug: in the Coordinate Reference System selector dialog, the new map preview showing the extent of the selected CRS does not do that for all the CRSes. After some trial, I can't tell which kind of CRS shows or not its extent (though many or all EPSG:4-digits seem to show their extent).</p>		

History

#1 - 2019-03-09 04:34 PM - Giovanni Manghi

- Status changed from Open to Feedback

Please check if this issue is still valid on QGIS 3.4.5 or 3.6.

#2 - 2019-03-09 07:39 PM - Harrissou Santanna

- Affected QGIS version changed from master to 3.7(master)

- Status changed from Feedback to Open

- File crsExtent.PNG added

I attached a screenshot.
