

QGIS Application - Bug report #17752

Symbol inconsistency between node tool and vertex editor

2017-12-27 11:11 AM - Saber Razmjooei

Status: Closed	
Priority: Normal	
Assignee:	
Category: GUI	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 25648
Description	
<p>In node tool, all the symbols have changed to circular, e.g. blue filled circle is selected node. But the vertex editor is still using the old style box symbols.</p> <p>Not sure if it is intentional or a bug and left over from QGIS 2.x</p>
