Category:	Map Composer/Printing	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	Yes	Copied to github as #: 25671
Description		
<p>The next feature would be useful:</p> <p>Qgis attribute tables in composer can only be sorted by visible fields. But there are cases when i don't want the field wich the sorting based on to be visible.</p> <p>Qgis neither lets write random expressions at the sort table window, only written, already visible field expressions can be used for sorting table rows.</p>
