### Description

### User Feedback

I selected some vertices in the map canvas then opened the node editor  
I remark that no vertex was shown selected in the dialog (see #17806) but to be sure whether it wasn't a GUI refresh issue I hit DEL.  
And Boouuuuummm!

Sorry I am unable to replicate. Could you please try again and maybe attach some test data and exact steps of what you did? (or a screencast)
