

QGIS Application - Bug report #17871

QGIS 3.0 (2.99 dev) GRASS-Tools in Toolbox with PostGIS and Geopackage Layers

2018-01-16 04:58 PM - Flo Ju

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	GRASS	
Affected QGIS version:	master	Regression?: No
Operating System:	Linux/64bit	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 25766
Description		
<p>GRASS-functions in the toolbox (e.g. v.buffer) allow to select GPKG or PostGIS-Layers as Source - the execution fails. Just works if layer is converted to SHP before. Maybe the UI can support users with this issue (only valid datatypes selectable or warning)... or support of this sources.</p>
