### Description

Windows 10

qgis installed from `QGIS-OSGeo4W-2.99.0-3-Setup-x86\_64.exe`

I have resolution 1280x720 on my virtual machine desktop.

I can resize each window in qgis except simple marker selector window.

Also I can move it from screen and can't reach it again so I have to stop qgis from task manager.

### History

#### #1 - 2019-03-09 04:34 PM - Giovanni Manghi

- Status changed from Open to Feedback

Please check if this issue is still valid on QGIS 3.4.5 or 3.6.

#### #2 - 2019-03-12 11:34 AM - zimirrr leonid

no issue in 3.4.4 and 3.6

#### #3 - 2019-03-12 02:56 PM - Giovanni Manghi

- Resolution set to fixed/implemented

- Status changed from Feedback to Closed
