QGIS Application - Bug report #17900
Row resize in attribute table does not follow row on resort

2018-01-20 04:45 PM - Kory Roberts

Status:	Feedback		
Priority:	Low		
Assignee:			
Category:	Attribute table		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25796

Description

In attribute table, enlarge row vertically. Now, apply a different sort. The enlarged row stays on row 1 always. The more likely user expected behavior is for the enlarged row to stay with the same data regardless of how it is sorted.
