QGIS Application - Bug report #17902
Changing a categorized symbol should not change the [change] widget symbol

2018-01-20 07:37 PM - Harrissou Santanna

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Symbology			
Affected QGIS version:	2.18.15	**Regression?:**	Yes	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	Yes	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25798	

Description

Open vector layer properties --> Style --> Categorized style
Do the classification
Double-clic on one category symbol
change and apply
In the Layer properties dialog, the [Change] button at the top of the dialog has its symbol changed and synced with the new one. This should not be. afaik, this buttonis supposed to rule the symbol of categories and not the inverse.

This also applies to graduated style.
Concerns 2.18.16 and master (worked in 2.14)

Associated revisions

Revision 89c2b4bd - 2018-04-30 02:21 PM - Harrissou Santanna

[bugfix]Changing a range or category symbol should not update the [Change] button's (Fixes #17902)

Also avoid modification of the **Change** button if the dialog is not accepted
