<b>Category:</b>	Vectors	
<b>Affected QGIS version:</b>	2.18.4	<b>Regression?:</b> No
<b>Operating System:</b>	Windows 8	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> invalid
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 25856
<b>Description</b>		
<p>I use 2.18.4 version. I merged two polygon layers with the "Sum" tool and colored it with the plug-in "Map coloring" (<a href="https://gitlab.com/Balaitous/mapcoloring">https://gitlab.com/Balaitous/mapcoloring</a>). There are errors (colors neighbour each other):</p> <p><a href="http://www.wolniludzie.com/mapcoloring/screenshot1.jpg">http://www.wolniludzie.com/mapcoloring/screenshot1.jpg</a></p> <p><a href="http://www.wolniludzie.com/mapcoloring/screenshot2.jpg">http://www.wolniludzie.com/mapcoloring/screenshot2.jpg</a></p> <p>Why this is happening?</p> <p>link to the project: <a href="http://www.wolniludzie.com/mapcoloring/example.zip">http://www.wolniludzie.com/mapcoloring/example.zip</a> (Layers are numbered according to colored layer creating process)</p> <p>I can give more project examples with this problem.</p> <p>I wrote about it here: <a href="https://gis.stackexchange.com/questions/268764/coloring-merged-shapes-by-the-map-coloring-plugin-errors">https://gis.stackexchange.com/questions/268764/coloring-merged-shapes-by-the-map-coloring-plugin-errors</a> but didn't get any answer.</p>		

#### History

#1 - 2018-01-25 08:32 PM - Nyall Dawson

- Resolution set to invalid

- Status changed from Open to Closed

You'll need to file this bug with the plugin itself - it's not related to the core qgis install.
