QGIS Application - Bug report #1797
SPIT : no shapefiles in modal window

2009-07-20 10:33 AM - peyo -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	GUI		
Affected QGIS version:		**Regression?:**	No
Operating System:	Debian	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	duplicate
Crashes QGIS or corrupts data:		**Copied to github as #:**	11857

Description

Steps to reproduce:

1. Start QGIS

2. Plugins -> Launch Spit

3. Connect to postgis

4. Click on button "add" (to add a shape layer)

5. A modal windows "Add a shapefile" is open

What happens:

The dialog box doesn't show shapefiles and is empty. Tested with several directories that contain shapes of multiple sources (and try with the pack of http://download.osgeo.org/qgis/data/qgis_sample_data.zip)

The name of the shape file can be copy/paste and the import is successful.

All the shapes can be loaded normally with the "add vector layer" icon in qgis.

Extra information:

OS: debian squeeze //
QGIS Version: 1.1.0-Pan //
libqtgui4 version: 4.5.1-2 //
postgresql : Version: 8.3.7-1 //
postgis : Version: 1.3.5-1
