

QGIS Application - Bug report #18045

Python function for expression is not loaded automatically

2018-02-05 07:11 AM - Ondrej Remes

Status: Closed	
Priority: Normal	
Assignee:	
Category: Expressions	
Affected QGIS version: master	Regression?: No
Operating System: Windows 10 64bit professional	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: invalid
Crashes QGIS or corrupts data: No	Copied to github as #: 25941
Description	
<p>Hello, i have problem with automatic loading python function for expressioning. The function is okey if i load it immediately before use it in expression. everything is ok until I restart QGIS. Is this option a new feature or bug?</p>	

History

#1 - 2018-02-05 07:17 AM - Ondrej Remes

- File *after_manual_loading_everything_is_ok.jpg* added

- File *my_expression_in_python_window.jpg* added

I use qgis-dev 2.99. There are images of my python function and moment after loading. Everything is ok.

#2 - 2018-04-14 01:37 PM - Tudor Bărăscu

You need to press the load button to reload the function after reediting it!

It's in the "Function editor" window, on top.. above-left of the python code window.

#3 - 2018-04-14 11:07 PM - Nyal Dawson

- Resolution set to *invalid*

- Status changed from *Open* to *Closed*
