| **Affected QGIS version:** | | **Regression?:** | No |
| **Operating System:** | Debian | **Easy fix?:** | No |
| **Pull Request or Patch supplied:** | | **Resolution:** | fixed |
| **Crashes QGIS or corrupts data:** | | **Copied to github as #:** | 11871 |

**Description**

Using 1.0.2: When overriding the system locale to choose another language, the choice of en_US disappears. You have to untick the Override system locale to make it appear again in the list.

*- Resolution set to fixed*

*- Status changed from Open to Closed*

Hi,

this doesn't happens on qgis 1.2, and as it will be released soon as the new stable release (and then the fixes will not be backported to 1.0.x) I guess we have to close this ticket.

Regards
