

QGIS Application - Bug report #18114

QGIS startup error when trying to start from icon pinned to taskbar (Windows 10 Pro)

2018-02-15 05:58 PM - Carolyn Krause

Status: Closed	
Priority: Low	
Assignee: Jürgen Fischer	
Category: Windows Package	
Affected QGIS version: 2.18.15	Regression?: No
Operating System: Windows 10 Pro	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 26008

Description

When I try to start QGIS by clicking the icon pinned to the taskbar, I get a popup window with this error message:

```
qgis-bin.exe - System Error
```

```
The code execution cannot proceed because qgis_gui.dll was not found. Reinstalling the program may fix this problem.
```

However, QGIS starts up without a problem from the start menu or from the desktop shortcut. The problem is only when trying to start from the taskbar icon.

History

#1 - 2018-02-15 09:15 PM - Nyal Dawson

- Resolution set to fixed/implemented

- Status changed from Open to Closed

This is fixed in 3.0
