<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 26029
<b>Description</b>		
<p>Hi !</p> <p>Currently, QGIS supports importing/exporting of styles as SLD only for vectors. This means we can't really say QGIS supports SLD, as it's only half of it.</p> <p>I think to be consistent, we should provide SLD for rasters too.</p> <p>In the meantime, there's a plugin that does it and seems to work well : <a href="https://plugins.qgis.org/plugins/SLD4raster/">https://plugins.qgis.org/plugins/SLD4raster/</a></p> <p>Kind regards,</p> <p>Olivier</p>
