

## QGIS Application - Bug report #18171

### Can't run python file from editor area in python-console

2018-02-21 10:48 PM - Josef Fällman

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> PyQGIS Console	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> Yes
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 26062
<b>Description</b>	
<p>When python-console is open, i open the editor area, create a small script like:</p> <pre>print("hello")</pre> <p>Running this file directly works fine, but if i save it, and the path contains special characters.</p> <p>one solution would be to change line</p> <pre>exec(open(u'C:/åäö/testfile.py'.encode('utf-8')).read())</pre> <p>to</p> <pre>exec(open('C:/åäö/testfile.py').read())</pre> <p>This probably because default string behavior in Python 3</p>
