

QGIS Application - Feature request #18175

Select by location in the vector menu

2018-02-22 04:31 PM - Etienne MORO

Status: Closed	
Priority: Normal	
Assignee:	
Category: C++ plugins/Spatial Query	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: Yes	Copied to github as #: 26066
Description	
<p>It should be nice to have the 'select by location' function in the 'Vector -> Research Tools' menu in QGIS 3.00. This function has disappeared from this menu in QGIS 2.99. I know that we can access to this function from the Processing Toolbox, but for a common user it's better to get it in the vector menu as it was in QGIS 2.18.</p>
