### Description

In my Processing Provider plugin I have an integer setting:

```
setting = Setting('MY_PROVIDER',
    'max_values',
    self.tr("Maximum values"),
    default=500,
    valuetype=Setting.INT)
ProcessingConfig.addSetting(setting)
```

When opening the Processing Settings dialog, this setting displays with no issue, but attempting to change the value raises the following exception:

```
AttributeError: 'QgsSpinBox' object has no attribute 'setText'
Traceback (most recent call last):
  File "/usr/share/qgis/python/plugins/processing/gui/ConfigDialog.py", line 404, in setEditorData
    editor.setText(value)
AttributeError: 'QgsSpinBox' object has no attribute 'setText'
```

Python version: 3.6.3 (default, Oct 3 2017, 21:45:48) [GCC 7.2.0]  
QGIS version: 2.99.0-Master Master, 585a4d3
