

## QGIS Application - Feature request #18186

### Should be able to lock a map object against accidental movement in the composer

2018-02-23 12:55 PM - Patrick Dunford

<b>Status:</b> Open	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Map Composer/Printing	
<b>Pull Request or Patch Supplied:</b>	<b>Resolution:</b>
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 26077
<b>Description</b>	
<p>For most objects on the composer canvas, they can be locked against accidentally being dragged out of position by using the lock checkbox in the item list.</p> <p>However it is not possible to lock a map object against accidental movement because then dragging the map surface cannot be performed.</p> <p>It would be preferable if the lock function for a map object can work the same way as for other objects.</p>
