<b>Description</b>		
<p>There may already be a feature request in for this, but I couldn't find one. Please could we have an option to set the colour of nodata in raster layers?</p> <p>There is a workaround (see <a href="https://gis.stackexchange.com/questions/75865/how-to-display-nodata-of-a-raster-in-qgis">https://gis.stackexchange.com/questions/75865/how-to-display-nodata-of-a-raster-in-qgis</a>), but it would be much easier if there was a dropdown as there is in ArcMap.</p>
