

QGIS Application - Feature request #1826

Keyboard shortcut for moving the cursor

2009-07-31 06:28 AM - alobo -

Status:	Open	Resolution: Copied to github as #: 11886
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>Keyboard shortcuts (i.e. Ctrl+ ->) for moving the cursor with no mouse, adding a cross-hair would be handy.</p> <p>We could have Ctrl+ -> for moving by steps of n pixels (n being customizable) and Ctrl+Shift+ -> for moving by small steps (even subpixel) for precision placement.</p>		

History

#1 - 2011-10-12 02:08 AM - alobo -

- Pull Request or Patch supplied set to No
- Assignee deleted (nobody -)
- Priority changed from Low to Normal

This feature is implemented with the arrow.

Could be closed, but actually the jump is too large.

Perhaps an option for defining the size of the jump could be added and/or having Ctrl-> for fine panning
