

QGIS Application - Bug report #18268

Spatialite's views not supported in Layout Atlas

2018-02-28 12:43 PM - Simon Falceri

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	3.0.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 26159
Description		
When I set in Atlas Layout a spatialite 4.3 view as coverage vector, not work very well.

Could you expand a little "do not work very well"? thanks!
also attach a sample project and data if possible.

- Status changed from Feedback to Open

In Atlas composer, when I set a coverage vector using a spatialite-table-view layer, label frame and HTML frame, don't show any fields.
When I set a shapefile or csv or similar it work.

Does it work as expected on 2.18?

#4 - 2018-03-01 01:21 PM - Simon Falceri

I have tried with qgis 2.18.17 the same operation, but nothing to do.
