## QGIS Application - Feature request #18347 More visible way to access Page Properties in QGIS3 Layout

2018-03-05 10:50 PM - Alex Mackenzie

Status:	Open		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Pull Request or Patch supplied:		Resolution:	
Easy fix?:	No	Copied to github as #: 26237	
Description			

The only way I could find to change the page orientation for layouts in QGIS3 is by right-clicking the page. This isn't easily discover-able for the user, a menu or button option may help.

I agree that it should be easier to find this option. Maybe Anita Graser's suggestion in the tweet above about the option pop up when users click on the empty page could be an alternative.
