Pull Request or Patch supplied:			**Resolution:**	invalid
Easy fix?:	No		**Copied to github as #:**	11897

Description

i was wondering if it is possible to add a feature to print composer that allows me to specify the exact density, and weight that i want for each line for the map box and legend in map composer

You define all this in the canvas, then you find it in the maop composer. It seems pointless to have the same funcions twice
