

QGIS Application - Bug report #18408

Some more batch processing errors

2018-03-10 06:08 PM - al ray

Status:	Closed		
Priority:	Normal		
Assignee:	Victor Olaya		
Category:	Processing/Core		
Affected QGIS version:	3.0.0	Regression?:	No
Operating System:		Easy fix?:	Yes
Pull Request or Patch Supplied:		Resolution:	
Crashes QGIS or corrupts data:		Copied to github as #:	26297

Description

Greetings,

I've tried to use the fill method(double click header) for a batch process and it doesn't work with file provided from open layers, giving off the following error:

2018-03-10T11:53:32 WARNING Traceback (most recent call last):

```
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\BatchPanel.py", line 282, in fillParameterValues
    self.wrappers[row][column].setValue(wrapper.value())
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\wrappers.py", line 1361, in setValue
    return self.widget.setText(value)
AttributeError: 'BatchInputSelectionPanel' object has no attribute 'setText'
```

I have also tried to use the autofill option with an input field of my model to complete the name of the output (something equivalent to "name_of_output{}.shp".format(value_field_of_model) in python) but I get the following error when providing my input field to the "autofill from parameter" popup:

2018-03-10T11:28:38 WARNING Traceback (most recent call last):

```
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\BatchPanel.py", line 282, in fillParameterValues
    self.wrappers[row][column].setValue(wrapper.value())
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\wrappers.py", line 1493, in value
    return [self.widget.options[i] for i in self.widget.selectedoptions]
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\wrappers.py", line 1493, in <listcomp>
    return [self.widget.options[i] for i in self.widget.selectedoptions]
TypeError: list indices must be integers or slices, not str
```

Maybe I'm doing it wrong.

[processing] Fix errors when filling parameters in batch panel

Fixes #18408

History

#1 - 2018-03-10 08:37 PM - Salvatore Larosa

What algorithm are you using the batch process for?

#2 - 2018-03-10 09:14 PM - al ray

- File model1_flow.png added

Batch process is for a model I made(see attached file) The value that I want to add to the output is the buffer_l value which is a Number parameter/input.

#3 - 2018-05-07 03:36 PM - Mattias Spangmyr

I encountered a similar error using the batch version of SAGA's "Upslope area" from the processing toolbox in QGIS 3.0.2 on Windows 7 x64 (code rev. 307d082e3d). Error when double clicking the parameter column's header:

Traceback (most recent call last):

```
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\BatchPanel.py", line 282, in fillParameterValues
    self.wrappers[row][column].setValue(wrapper.value())
File "C:/PROGRA~1/QGIS3~1.0/apps/qgis./python/plugins\processing\gui\wrappers.py", line 847, in setValue
    self.widget.setText(value)
AttributeError: 'BatchInputSelectionPanel' object has no attribute 'setText'
```

#4 - 2018-06-01 07:54 AM - Nyall Dawson

- % Done changed from 0 to 100
- Status changed from Open to Closed

Applied in changeset commit:qgis|950d042e72cdb27b9c3c57a013e59bbb50e2b202.
