- Resolution set to worksforme
- Status changed from Open to Closed

I cannot reproduce this on qgis 1.2 trunk. Are you using the development version? If not, please give it a try and report back. If there was a fix already it will not be backported to 1.0.x/1.1 version. Reopen if necessary.

#2 - 2009-07-31 12:00 PM - dassouki -

I haven't tried it in 1.2 since i can't download it at work. My issue related to 1.1 (grey line) and 1.0.2 (black line)

Please give it try when you can. You can install it easily with the osgeo4w installer under windows or compiling sources under linux.
