

QGIS Application - Bug report #18479

Add Feature Feature Attributes box not automatically selected

2018-03-19 10:24 AM - kate warn

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Attribute table	
Affected QGIS version:	2.18.17	Regression?: Yes
Operating System:	windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: not reproducible
Crashes QGIS or corrupts data:	No	Copied to github as #: 26367
Description		
Go to add feature, draw polygon, go to type in a number and the feature attributes box isn't automatically selected as the active tab. So have to click on the Feature Attributes box before typing in a number. This never happened on 2.14 and its frustrating and time consuming for the stuff I do on QGIS.
