### Description

i was wondering if it's possible to have multiple distinct styles for a layer in canvas. Right now, i add the same layer to canvas just to change a linewidth or color. A classic example is when i'm producing, colored and BW maps.

### History

#1 - 2009-07-31 10:12 AM - Giovanni Manghi

- Resolution set to worksforme

- Status changed from Open to Closed

layer -> properties -> "load style" and/or "save style".

Please reopen if this was not you were looking for.
