QGIS Application - Bug report #18514 Layout group variables in Layout panel are not updated

2018-03-22 07:19 PM - Harrissou Santanna

Status: Open Priority: Normal

Assignee:

Category: Map Composer/Printing

Affected QGIS version:3.1(master)Regression?:NoOperating System:Easy fix?:No

Pull Request or Patch shapplied: Resolution:

Crashes QGIS or corrupts data: Copied to github as #: 26402

Description

In the Layout panel, Variables, Layout, it looks like variables are set once and all.

In the attached screenshot, none of the variables shown in the panel (dpi, name, numpages,height and width - for the last ones, I don't know what it should be given the two sizes of pages) is right while they are up to date in the label item.

I refreshed the dialog multiple times.
