Easy fix?:	No	**Copied to github as #:**	11913

Description

When getting the info for a layer (raster or vector), it is not possible to copy the information contained in the popup window in the clipboard, for use in other programs. Looks an easy fix

History

- Resolution set to duplicate

- Status changed from Open to Closed

I first thought you meant the metadata tab from the layer properties. That's copyable.

If you mean the identify results, then this is a duplicate of #59

Feel free to reopen, if I'm wrong.
