

QGIS Application - Bug report #18547

[Processing toolbox] Search box (result) not updated when list of providers change

2018-03-26 05:47 PM - Harrissou Santanna

Status:	Open	
Priority:	Low	
Assignee:	Victor Olaya	
Category:	Processing/GUI	
Affected QGIS version:	3.1(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 26435
Description		
<p>In the Processing toolbox, begin a search of alg: let's type "ce": you get filtered algs</p> <p>Click the Options button and disable/enable a provider (let's say Grass) in the settings dialog</p> <p>Close the Options dialog</p> <p>In the toolbox, the algorithms frame will reset to its default status but the search box is still filled with the "ce" text.</p> <p>I think that either the search is performed with/without the GRASS provider or either the search box is cleared.</p>
