| Operating System: | Windows 7 | Easy fix?: No |
| Pull Request or Patch supplied: | No | Resolution: not reproducible |
| Crashes QGIS or corrupts data: | Yes | Copied to github as #: 26450 |
| Description | | |
| I recently began having crashes when simply zooming in. I just installed v3.0.1 in hopes that it would resolve this issue but it happened again immediately. I've recently clipped a number of files and am wondering if there is an issue with one or more of these files? | | |

- Assignee deleted (Denis Rouzaud)

Can you try to reproduce by adding file by file?
Also, do you have any plugin installed?

#2 - 2018-06-08 01:48 PM - Giovanni Manghi

- Priority changed from Normal to High
- Status changed from Open to Feedback

#3 - 2018-08-15 07:56 PM - Giovanni Manghi

- Resolution set to not reproducible
- Status changed from Feedback to Closed

Closing for lack of feedback.
