

QGIS Application - Feature request #18579

More intuitive Legend Items when adding legend to layout

2018-03-29 03:29 PM - Brett Hankerson

Status:	Closed	Resolution: duplicate Copied to github as #: 26467
Priority:	Normal	
Assignee:		
Category:	Map Legend	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description Not a critical issue, but it does get annoying having to remove labels from 10 other maps when I only want the label from the selected layer. A toggle option in settings would be great, something like "Add labels only from selected map canvas features". As it is, I can never use the "Auto update" Legend items function.

Is this a duplicate of #11293?

#2 - 2018-03-29 04:06 PM - Brett Hankerson

Aha, so it is, sorry about that. Must be a rather difficult fix.
